Nature of report (preliminary, final, advisory, executive/legislative): N/A

Key recommendations: N/A

Key programs initiated: N/A

Recommended appropriation: N/A

Web link to agency or task force: N/A

Statement of Values: In 2004, the Louisiana State Legislature created the Louisiana Broadband Advisory Council (Council), which is charged with developing a coordinated statewide broadband access and usage policy.

Where we've been: Hurricane Katrina brought any state efforts in Louisiana regarding the Council to a halt. There has been no reportable activity with respect to this Council since Hurricane Katrina.

Where we are today: N/A

Where we want to be: N/A

How are we going to get there? N/A

Broadband functionality (tiers of service) - N/A
